# How much does it cost

One thing Good Tattoos are never cheap and cheap tattoos are never good. So when it comes to tattoos you should not bother with the price of it because you will get what you are paying for. There are many tattoo artists who will ink you for cheap and then look for the real artist and have it covered up. So look for quality and pay for it. Don't haggle on the price and don't disrespect the art. If you don't pay for quality, that's okay. It's not a bargain thing. It's an art that you will wear for the rest of your life.
