Apprenticeship

To find an apprenticeship means, find a Tattoo artist who can get you in the tattooing business with the proper training of it. It's not a "Quick money making" thing.

You are finding an Apprenticeship who stays with you for long enough for the proper training. Tattooing is not only the part that comes under it.

How to do stencil, how to clean machines, how to sterilize devices.

Apprenticeship cannot be done in a month.

And a good mentor will never allow you to start with tattooing until you are well aware of all above terms.
